PREFACE

This catalogue describes a great number of very desirable and fine American Colonial, State and United States coins and I believe collectors carefully perusing the following pages will be able to discover specimens that they desire to add to their collections.

The greatest rarities in the present sale are: 1794 cent, new obverse die unknown to Hays. 1794 cent, Hays No. 8 1838 silver dollar. (1861) J. J. Conway & Co. \$5. The only example that has ever been offered for public competition and of which but one other specimen is known, that in the United States Mint collection at Philadelphia, making this one of the greatest specimens of Pioneer gold that has ever been offered.

1859 half dime with HALF DIME in wreath and no other inscription, one of the rarest United States coins, of which it is said but four were struck.

1856 Eagle cent, R. Broad shield and Oak wreath, is of great rarity. Probably less than ten examples known.

1826 quarter eagle is extremely rare and the 1842 quarter eagle, Philadelphia Mint, is, I believe, the only example that has ever been offered for public competition. I have been unable to discover where another specimen has been sold or the whereabouts of a duplicate outside of the example exhibited in the U. S. Mint. It is one of the rarest U. S. coins and should be appreciated.

In describing the cents, I have endeavored to note any defects or damages and to describe the colors so that they will give the intending purchaser an idea as to the appearance of the specimen. I would recommend to those contemplating bidding to buy one of the plate catalogues so that they might see the condition a large number of the important pieces are in. I believe the descriptions will give satisfaction to the collector.

I guarantee the coins and medals to be genuine. This guarantee holds good indefinitely.

I have issued an edition of the catalogue illustrated with five plates showing the rarest pieces in the collection, price \$1 postage paid. Catalogues will be priced after the sale for 75c, or with plates and prices \$1.50.

Each coin is sold separately at so much per piece, no lot is divided. Collectors are earnestly requested to so make their bids. Persons making errors by bidding on lots will have to stand the consequences. Please examine the bids you are sending and see that they are correct both as to lot number and price and sign your name to the bid sheet and also your address. Collectors unknown to me who have not established themselves will kindly send bank reference.

Coins on exhibition from 9 A. M. to 12.30 P. M. No coins exhibited during the sale, except a special lot occasionally on request.

Bids will be faithfully and carefully executed by me for the regular and usual 10% of the amount purchased, no charge being made unless goods are bought.

The catalogue is issued considerably in advance of the sale so as to give collectors at a distance ample opportunity to get their bids in and I trust intending purchasers will make their bids in time.

Persons desiring further information as to about what lots will sell for, may have the information on application.

The Chambers collection of Paper Money will be held the days following the termination of this sale. Persons receiving this catalogue and not the Chambers and desiring a copy of that catalogue will please notify me and one will be sent immediately.

It is the greatest sale of Paper Money ever held in this country and comprises issues of every kind.

ment being made in a certain recent auction cata-
logue that this was struck by the Confederates
while in possession of the Mint seems to me to
need some further proof to identify them as
struck by the Confederates. The U. S. Gov. was
in charge in the early part of 1861 and if any were
struck by the Confederates I fail to find any dis-
tinguishing mark. The Mint Report gives the
U. S. Gov. as coining 330,000 half dollars in 1861
at New Orleans Mint.
